PROFESSIONAL PROFILE

- A passionate and self-motivated learner dedicated to continuously expanding my skill set and experience as a Web Developer.
- Skilled and detail oriented coder with the ability to effectively communicate ideas, problems and solutions individually or in collaboration with a team.
- Strategic thinker who is dedicated to continuous learning.

SKILLS

HTML5

CSS3

SASS

Bootstrap

JavaScript

React

Node

Express

MongoDB

DANIEL KAPPER

WEB DEVELOPER

KEY PROJECTS

- Built a productivity application using Node, Express, and MongoDB to replace Google Sheets and Forms at TitanHouse. Used Passport.js local strategy to build an authentication system. The application passes data between controllers to reduce the number of times a user has to input data and makes it possible for a user to send data along with many other features to another user.
- Built a single page web application using React and Redux. It has an input field to search for videos on Youtube. The user is then able to select a video and watch it inside the application.

PROFESSIONAL EXPERIENCE

TitanHouse - *Research Associate & Developer*

Washington, DC

November 2017 to Present

- Developed tools such as search engines and productivity applications to ensure no time is wasted on repetitive tasks.
- Thoroughly researched private equity and venture capital portfolio companies and investments.
- Effectively managed my own productivity, recognized as the most efficient team member at work.

MediModo App - *Co-founder*

St. Louis, MO

January 2017 to June 2017

- Designed a customer development program that measured how much value the app created for users.
- Acquired evidence to assist decision making processes regarding when to pivot or proceed.
- Worked as an enthusiastic team member in a fast-paced environment.
- Communicated daily updates to team members in scrum meetings.

Winco Windows, Inc. - *Team Leader*

St. Louis, MO

May 2015 to October 2017

- Managed a team of five employees responsible for meeting daily and weekly deadlines by building a solid and helpful team environment.
- Trained employees and evaluated their performance.
- Maintained inventory records and placed orders for new materials.

EDUCATION

Missouri State University - *Computer Science*

2009 - 2012

Successfully completed 90 credits, including 27 Computer Science credits. GPA 3.4. Withdrew in good standing for financial reasons.
