DANIEL KAPPER

WEB DEVELOPER

PROJECTS

Kiwi Social

Used Ruby on Rails to develop a complex web application.
Used multiple gems including devise and rails_admin.
Utilized Bootstraps design and responsive grid.
Implemented a relational database where users can follow each other.
Deployed to Heroku using postgreSQL.

Dice Game

Designed a dynamic and browser compatible game with HTML and CSS.
Manipulated the dom with Javascript ad Jquery.
Integrated multiplayer functionality.
Used git and github to deploy the game online.

EXPERIENCE

MediMode App - Co-founder
January 2017 - June 2017

Designed a customer development program to measure how much value the app was creating for its users.
Acquired evidence to help make decision to pivot or proceed.
Worked closely with people in a fast moving team.
Communicated updates in daily scrum meetings.

Winco - Team Leader
May 2015 - August 2017

Led a team of 5 employees to meet daily and weekly deadlines.
Took full responsibility in my department's successes and failures.
Built a solid and helpful team environment.
Maintained a trusting relationship with management

EDUCATION

Computer Science

Missouri State University, August 2008 - June 2011. Successfully completed three years of undergraduate studies, GPA 3.4. Withdrew in good standing for financial reasons.
